TO THE FCC, RE: ITS DODGE FILE, SED: JULY 1, 00 MEDIA OWNERSHIP:

I wish to express my strong opposition to any weakening or elimination of the FCC's media ownership regulations. The rules, including ownership caps on TV and radio, and a ban on local newspaper/broadcast cross-ownership, must remain strong because they provide vital protection to local accountability, competition and diversity in our media.

The FCC has been entrusted with safeguarding these media values because our democracy depends on access to diverse voices, answerable to the public interest - not economic motivations alone. Recent trends favoring corporate media concentration have taken a heavy toll on independent and local voices in media, minority media ownership and viewpoint diversity. This trend should be reversed, not extended.
